

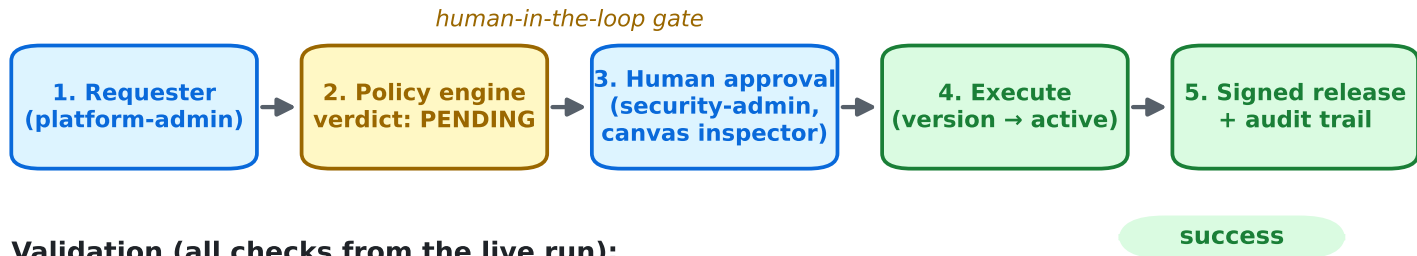

Fig. 1 Governed runtime: a policy change blocked until approved

Scenario A — openMiura's canonical demo, run in-process against a real audit store

Validation (all checks from the live run):

- ✓ admin_events_available
- ✓ blocked_before_approval
- ✓ current_version_matches
- ✓ pending_approval_visible
- ✓ signed_release_present
- ✓ approval_required
- ✓ canvas_operator_action_visible
- ✓ executed_after_approval
- ✓ runtime_timeline_available

runtime_id 2aedee9a... approval_id f47eaaa2...
