

Fig. 6 Per-(table, scope) append-only hash chain

Each row hashes its content + the previous row's hash; the head is attested in the signed pack

events · scope 45a0644109ef... · 29 rows

← head
(in pack)

release_approvals · scope 44599e2ec0f4... · 4 rows

← head
(in pack)

chained tables: decision_traces=0, events=41, release_approvals=7, tool_calls=0
