

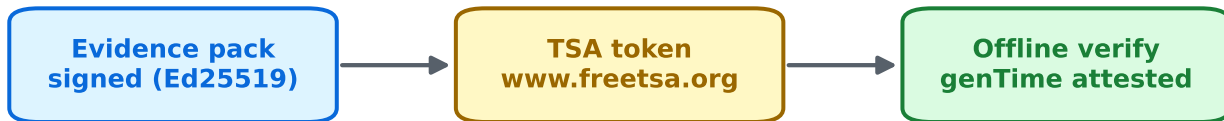

Fig. 7 RFC 3161 trusted timestamp — the WHEN

A public TSA signs the pack signature; the token is then verified offline

`genTime = 2026-07-25T16:14:04+00:00` (RFC 3161, <https://freetsa.org/tsr>)

PASS

The timestamp binds a trusted “when” to the trusted “what” and “who” — no network needed to re-check it.
